**5. Project Description**

Provide a brief description of the proposed project. Include number of acres and expected crop rotation for agricultural irrigation wells. Rapids Area Soccer Inc. (RASI) is planning to expand Rapids Area Soccer Complex by Washington School by constructing two new soccer fields. The fields will have a sprinkler system. The existing fencing will be expanded to enclose the new soccer fields. RASI is nonprofit 100 % volunteer based organization. Enclosed are the plans for the soccer fields. The project will be funded by fund raising and volunteers.

**6. Required Enclosures**

- ☒ Non-Potable High Capacity Well Application Form.  
☒ Aerial or Plat Map with property boundaries outlined.  
☐ Variance Request, if needed (Form 3300-210)
- ☒ \$500 application fee (See s. 281.34 (2), Wis. Stats.)  
☒ Well Construction Reports (if available) for existing wells.

**Additional Project Information**

Please include any additional relevant information regarding this project such as existing wells to be abandoned, proposed non-standard construction methods or pending ownership changes

The wells will be constructed based on the information noted during the permitting process for the existing listed wells on February 26, 1992. The casing depth will be as noted in the application. This will avoid the issue of wells' yield and iron content that was encountered during the construction of the 1992 wells. I will be attaching the installation and permitting report of the existing wells. The well drillers informed RASI that the geological materials and water levels in the whole area of the Soccer fields requires the casing depth to be maximum of 20 feet in order to have a properly functioning well. We have not have any issues with the existing 1992 wells.

The tentative driller is Bertram- Junemann Well Drilling Inc., 7117 County Trk S, Rudolph, WI, 54475

Thank you
